The process is simple, the Travel Agency contacts our Team following the guests request on a specific service and our Team replies instantly on availability. The service takes place at the Hotel, Villa or Yachts or outdoor depending on the guests desire.

Personalised Wellness Retreats (individuals & groups)

A Wellness Retreat offers a purposefully designed programme of therapies and activities, guided by leading health and wellness experts aiming to leave away stress, responsibilities and pressure of daily life and let the mind quiet down from its daily routine. A wellness retreat provides a much needed safe space in our busy lives, to finally slow down, to relax and experience new things. Our Team of professionals in co-operation with Travel Agents and Concierge Offices designs tailored made Wellness getaways combining Wellness activities and local cultural experiences for their exclusive clients. Travel Agents and Concierge offices have the opportunity to attract leisure travellers through these specialised Wellness packages for individuals like families, friends, special occasions and Corporate groups as well.
